FREE OSHA ALLIANCE BREAKFAST WORKSHOP **“Controlling Exposure to Hazardous Chemicals in the Workplace”**

You’re probably already aware of irritating or smelly chemicals in your workplace but what about the ones you can’t smell, taste or feel?

Some of these chemicals can be powerful irritants to the skin, mucous membranes of the eyes and gastrointestinal and respiratory tracts. In cases of over exposure, workers can become overly sensitized and can suffer from extreme asthma attacks and other respiratory problems. That’s why it’s important for you to understand the dangers of associated with the chemicals in your workplace and what can be done to prevent exposure amongst your workforce.

Suncoast Safety Council invites you to attend this **FREE Breakfast Seminar** addressing chemical hazards in the workplace. The seminar will address the following topics:

- Types of chemicals found in industry
- Air monitoring and exposure levels
- Effects and symptoms of overexposure
- Exposure prevention strategies
- Personal protection equipment
- And much more!

PRESENTED BY GUEST SPEAKERS:

Joan Spencer,

Compliance Assistance Specialist

OSHA Region IV

**FREE
Bagels &
Coffee
Provided!**
