**SUNCOAST
SAFETY COUNCIL**

OSHA Regulation 1910.151

"In the absence of an infirmary, clinic, or hospital in near proximity to the workplace which is used for the treatment of all injured employees, a person or persons **shall be adequately trained to render First Aid.**"

CPR-AED (For Community & Workplace)

This program will help employers meet OSHA and other federal and state regulatory requirements for training employees how to respond and care for medical emergencies at work. This training program is designed for individuals in the workplace and community that require or desire basic CPR and AED skills. This program is not intended for persons in the healthcare field.

CPR-AED \$40 pp

Basic First Aid

This program is designed for individuals in the community that require or desire a basic knowledge and first aid skills. This new Basic First Aid for Community and Workplace will help employers meet OSHA and other federal and state regulatory requirements for training employees how to respond and care for medical emergencies at work. Participants learn to apply first aid skills to save lives and reduce recovery time. It is recommended for emergency response teams in business and industry, school bus drivers, adult residential care personnel, childcare workers, teachers, parents and babysitters.

Basic First Aid \$30 pp

CPR-AED & First Aid (Combined Training)

This combined training program is designed for individuals in the workplace or community (not healthcare professionals or professional rescuers) who desire or are required to be certified in CPR-AED and Basic First Aid for adults, children and infants. **CPR-AED & First Aid Combo \$65**

CPR PRO (For Healthcare Professionals in and out of the Hospital)

American Safety & Health Institutes *CPR for the Professional Rescuer* program is designed for individuals in the healthcare and professional rescuer field that are required to have professional-level *Basic Life Support* training. Students learn to recognize a life-threatening emergency, how to provide basic life support and what to do in case of an airway obstruction or choking. *CPR PRO* has been approved for training for Emergency Medical Services personnel and is accepted by the National Registry of Emergency Medical Technicians (NREMT).

CPR-PRO Full Course \$65 pp

CPR PRO Refresher Course

CPR PRO refresher training is intended for healthcare professionals who hold ASHI CPR PRO certification that will expire soon or for those who feel they need to update their skills to be more confident in emergency situations. If your current ASHI certification has expired, or if you currently hold a certification other than ASHI, you are not eligible for this refresher course. Participants must have their about to expire ASHI card with them for this training.

CPR PRO Refresher Course \$40 pp

Bloodborne Pathogens

ASHI Bloodborne Pathogens awareness program includes information that will help students understand what Bloodborne pathogens are and how risks of exposure can be reduced for themselves and others. The program assists in satisfying the training requirements of the U.S. Department of Labor, OSHA Bloodborne Pathogens Standard. BBP is recommended for any employee who has a reasonable anticipation of contact with blood or other potentially infectious materials because of performing designated job duties, including but not limited to, healthcare workers, public safety personnel, housekeeping and custodial workers, educational and correctional workers, and first aid providers.

Bloodborne Pathogens \$30pp

Initial training classes and refresher courses vary in length depending on course content and training requirements for adult, child, and/or Infant. All training is available onsite at your facility with 10 or more participants. Please allow at least two weeks for scheduling. SSC member discounts apply.
